You have my permission to do so. I wouldn't want anyone else to go through this. Any medical records you need, let me know

If the utility does not agree to replace the meter at your request, you have the option of filing a formal complaint with the PSC to seek to have it replaced. I should note that the burden of proof in such cases rests with the complaining party, so you should be prepared to present legally sufficient evidence regarding the health effects of the meter in question.

As a matter of course, I would normally place your e-mails into the public comment file for the administrative case before the PSC regarding smart grid matters, including smart meters. However, due to the privacy issues related to medical information, I will not in your case unless you direct me to do so.

> Good evening, I wrote you a couple times before concerning my smart meter. KU insisted that I don't have a smart meter, but in fact I do. I seen my old meter reader and I spoke to her and she in fact said its a smart meter. Also, I would like to have it know I was recently diagnosed with cancer of the brain and lung. On November 30, 2015 I was diagnosed with the brain cancer, and had to have surgery on December 4th to remove a tumor, which is one of 2 on my brain. And I just had a lobendectomy on January 6th. I'm waiting on to see what my neurosurgeon wants to do with the 2nd tumor on my brain. I expressed the medical issues I've been having since the installation of this smart meter but no one would listen. I have copies of the email I sent you as well as others. I want this meter removed before my disabled son contracts something. Please help us
